DETAILED ACTION

Response to Amendment

1. Applicants' amendments and arguments, see amendment, filed on 03/29/2007, with respect to Claims 1-11 have been fully considered and are persuasive. The 35U.S.C.103 rejections have been withdrawn. None of the previously cited reference teaches the Claims 1-11.

Allowable Subject Matter

2. Claims 1-11 are allowed.

Examiner's Statement of Reasons for Allowance

3. The following is a statement of reasons for the indication of allowable subject matter: The prior art along or in combination fails to teach or make obvious the following limitations: "sampling said first analog signal and said at least one second analog signal to obtain a first digital signal and at least one second digital signal, respectively, a possible delay being present between the first digital signal and the at least one second digital signal; and sending said digital signals to respective equalizers; delaying, in a digital manner, one of said first and second digital signals relative to the other by a period equal to an integer multiple of the sampling period, said delaying comprising automatically calculating a value of said integer multiple, and optionally recovering, at equalization, the difference between the imposed delay and the real delay" as recited in the independent claims 1, 4 and 9.
